THE PEDDLER'S STORY.

I do not think I am naturally superstitious, but I have all my life been troubled with a kind of superstitious sense. The sound, as of a human voice, comes to me and syllables words of meaning, when I know no human being is near, and that the whole must be some kind of mental deception. I remember once, when quite a lad, living at home with my parents in Paris, I heard the words:

"Pierre Boissant, prepare for sorrow!"
What followed? My father at that time was accounted a rich merchant. Three weeks after he was a bankrupt. It had been the most imaginative person in the world I could not have presaged this.

Three years after the same words were repeated. I was then alone, on the Troies, engaged in the humble calling of peddler, to which my father's misfortunes had reduced me. I felt that something serious was about to happen, and I took the first conveyance back to Paris. I hastened to my father, and found him dying, and my poor mother almost distracted with grief. She was surprised to see me, but when I told her what brought me home, she said it must be the voice of the Lord. I did not agree with her in that respect, because I often heard that same voice saying trifling things.

Well, my father died, but mother did not long survive him, and then I was alone in the world. Seeing nothing better before me, I resumed the humble business of a peddler, and after two or three weeks spent in France, went to Sardinia and established a route for myself among the retired villages of the mountains.

I was now in a region wild enough to suit my romantic turn of mind, and perilous enough to keep me in a state of constant excitement. Some of the routes between one habitation and another were so long that one day's journey would not take me through, and then I would be obliged to find my lodging among the caves, rocks or trees, as best I could. Some of the mountain passes were very dangerous, and a slip or misstep might send one headlong down a thousand feet. And not least of all was the danger from robbers, who might be met where least expected.

For six years I carried on my traffic in that wild region, without any other misfortune than some serious fights and hairbreadth escapes. By this time I felt that, for a young man, I was pretty well off, and thought I would return to Paris and set up shopkeeping, when an event, or perhaps I should rather say tragedy, that happened about that time, fixed my resolution and hastened my departure.

I was going over a wild and lonely pass of the mountains, the sun being nearly set, when my familiar voice, that had never left me, said distinctly:

"Pierre Boissant, beware!"

I was alarmed at this warning, because I had never received a warning of the kind in vain. I looked up to the frowning rocks above me, and into the awful gulf below, and then at the zigzag path I was pursuing, but saw no living thing except a large black vulture winding its way from one black peak to the other. I knew the voice was not human, and I felt there was some impending danger, but what it was or where to look for it, I could not tell. It was not possible for me to remain where I was—to go back might be as dangerous as to go forward, and so I continued to advance, looking carefully at every step, and glancing nervously at the surroundings.

At length I reached a gloomier place where it was usual for me, when on this route, to turn into the dark valley, to pass the night in a little cave which I had discovered about a hundred yards from the path, and which was so concealed by a clump of bushes that I believed it was known to no one but myself. I found myself instinctively, as it were, moving in that direction. A moment's reflection on the warning I had received, convinced me this was the best thing I could do; for if there was danger, it was doubtless from robbers, who were, probably, lying in wait for me on my regular well-known route.

So I went on, slowly and cautiously, till I reached a point directly over the cave. Some bushes which had struggled up from

the crevices afforded me a place of concealment; and crawling into these, I disburdened myself of my pack, spread out my blanket, and proceeded, without attempting to light a fire, to eat the food I had provided for supper that night. The sun had set, and the shades of night were coming on.

"Perhaps I am foolish in taking this precaution," I thought. Scarcely had these thoughts passed through my mind than I fancied I heard voices speaking in low tones. Their sounds seemed to come from below. I listened intently, straining my hearing to the utmost to catch the words, if words indeed they were, for, after all, it might be the breeze playing among the rocks and trees.

For several minutes I continued to hear those sounds, but unable to make out what they were. They ceased, and all was silent. It now became dark, and though I crept to the rocks, and tried to peer down, it was like attempting to look into some black gulf. My situation was lonely enough; but I experienced a secret satisfaction in being where I was, and not in the cave, where I rather felt than thought some persons were lying in wait for me.

At length that same low murmur, as of voices, was again heard, and again I listened with my entire sense of hearing on the stretch. Soon became satisfied that something was said—but then came the thought that it might be the mysterious voices I had heard at intervals all my life. But I was not long in doubt, for presently I could distinguish the sounds, as if the speaker in the cave had come out into the open air.

"It is strange he does not make his appearance!" said one voice.

"I cannot account for it," replied another.

"Are you sure you saw him?" inquired a third.

"Well, you he was within a mile of here, coming along with his pack. Here he usually passes the night, and why he is not here is more than I can conjecture."

"If he had gone past, we should have heard from the other before this," remarked the first speaker.

"Undoubtedly," was the reply. "He must be somewhere on the mountain—unless he has fallen over the precipice, in which case we shall find all we want of him in the morning, and be saved the trouble of blood-letting."

"Could he have got near enough to have heard our voices?" inquired another.

"No, for Ricardo is so posted that he would have seen or heard him first."

"Well, then, he may be here yet. Hark!"

"Hush! there are steps coming this way now!" said the speaker, in a whisper which I could just hear, the night being still, and my position directly over the parties.

Now, then, be ready, and let us make quick work of it."

After this the robbers were as silent as death, and with feelings that must be left to the imagination, I listened to the approaching footsteps, that I knew were mistaken for mine. It was with a shudder and a strange kind of dread, that I heard steps nearing, with now and then a slight rustle of the bushes, and the occasional loosening and rolling of a stone. I felt that some human being was moving on to his doom, and I could have called out to him to beware, if I had known I could have saved him with anything short of my own life.

I trembled, and the perspiration started out of every pore.

Suddenly there came a prolonged shriek, and the words:

"Oh, heavens! I am stabbed! I am killed! I am killed!"

"Gracious heavens!" cried another, "That is Ricardo's voice. A light here, quick!"

The next moment a light flashed upon the figure of a human being, stretched upon the ground, in the last agonies of death.

A scene of consternation and confusion ensued, after the robbers found they had slain their own sentinel or look-out in mistake for me. Some blamed the man that had struck the fatal blow, and some the ill-fated man himself, for approaching in the manner he did, without proper warning. It was finally decided that he had been killed by mistake, and that no one should be blamed for a foreordained fatality. So they took up the body, from which the last spark of life had now departed, and carried it away.

I thank heaven for my own wonderful preservation, and could not out feel that the awful retribution was but just.

of the Fair of the

AMERICAN INSTITUTE

NEW YORK, 1865.

To the FLORENCE SEWING MACHINE CO. for

the Best Family Sewing Machine,

HIGHEST PREMIUM! GOLD MEDAL!

REASONS:

1st.—Its simplicity and great range of

work.

2d.—The Reversible Feed Motion.

3d.—The perfect finish and substantial

manner in which the Machine is

made.

4th.—The rapidity of its working and

the quality of the work done.

5th.—The self-adjusting Tension.

The Florence was awarded the first and highest

Fair on the Pacific coast at which any two double

thread Sewing Machines were exhibited in competition

in 1865.

The Florence received the only premium awarded,

by the Mechanics Institute of San Francisco, in

1864 and 1865, to any Sewing Machine. Sewing

Machine Co., or Agent. The claim of a competitor to

a medal is without any foundation whatever.

Wherever the Florence has been brought in com-

petition with other Sewing Machines, it has al-

ways been declared the best. It is the most de-

structive to mankind and Self-Abuse. The brain be-

ing the seat of the disease, the whole system suffers

in consequence. I will here enumerate some of the

symptoms, so that those afflicted may be able to

form an opinion in regard to their complaints and

A CARD FROM THE

AMERICAN WATCH COMPANY,

of Waltham, Mass.

This Company beg leave to inform the public:

that they commenced operations in 1850, and their

factory now covers four acres of ground, and has

cost more than a million dollars, and employs over

700 operatives. They produce 75,000 Watches a

year, and make and sell more than one-half of

all the watches sold in the United States.

The difference between their manufacture and

the European, is briefly this: European are made

almost entirely by hand, and the result is of necessity

a lack of that uniformity, which is indispensable

to correct time-keeping. Both the eye and

the hand of the most skillful operative must vary.

But it is a fact that, except watches of the higher

grades, are the product of the cheapest labor of

Switzerland and the result is the worthless Amer-

Lepine and so-called Patent Levers—which soon

cost more in attempted repairs, than their original

cost. Common workmen, boys and women, buy

the rough separate parts of these watches from

various factories, polish and put them together,

and take to the nearest watch merchant, who stamps

and engraves them with any name or brand that

may be ordered.

How American Watches are made.

The American Waltham Watch is made by no

such uncertain process—and by no such uncompe-

workmen. All the Company's operations from the

reception of the raw materials to the completion of

the watch, are carried on under one roof, and under

one skillful and competent direction. But the

great distinguishing feature of their watches, is

the fact that their several parts are all made by the

finest, the most perfect and delicate machinery ever

brought to the aid of human industry. Every one

of the more than a hundred parts of every watch is

made by a machine—that infallibly reproduces

every succeeding part with the most varying ac-

curacy. It was only necessary to make one per-

fect watch of any particular style and then to ad-

just the hundred machines necessary to reproduce

every part of that watch, and it follows that, suc-

ceeding watches must be like it.

The Company respectfully submit their watches

on their merits only. They claim to make

A Better Article for the Money

by their improved mechanical processes than can

be made under the old fashioned handicraft system.

They manufacture watches of every grade, from a

good, low priced and substantial article, in solid

silver hunting cases, to the finest chronometer; and

also ladies' watches in plain gold or the finest ena-

med and jeweled cases; but the indispensable

require of all their watches is that they shall be

GOOD TIMEKEEPERS. It should be remembered

that, except their single lowest grade named the

"Home Watch Company, Boston," ALL Watches

made by them

ARE FULLY WARRANTED

by a special certificate, and this warranty is good

at all times against the Company or its agents.

ROBBINS & APPLETON

SEMI-WEEKLY ENQUIRER.

SATURDAY, OCT. 19, 1867.

It is with feelings of gratification that we are enabled to announce to the Union men of Placer county the complete success of our ticket. This result, taken apart from the September election, was no more than was to be expected, but from the action of the so-called "independent press" during the summer campaign, and the pernicious influence it was enabled to exert upon well meaning Union men by reason of its former good record, led many astray who did not at the time understand its treachery. Since, however, the masses have come to understand that this same "independent" press was induced to oppose the regular ticket through vicious and unworthy motives, their influence has been curtailed, and the seeming support given by them fell far short of creating anything like an enthusiasm for the men they essayed to elect. In other words, their former defection to the principles hitherto supported by them placed it out of their power to render the Union cause any substantial aid in the Judicial election, and consequently the party is in no way indebted to the "independent" press for the success it has just achieved.

In our own county we have obtained a majority nearly double for our nominees that received for the Union ticket in September, notwithstanding we presented for the endorsement of the people at that time men who were entirely capable, and were so acknowledged; but influences were brought to bear to injure worthy gentlemen that could not be combated in time to do away the evil impressions made. In our Judicial election, also, every means were resorted to to defeat our candidates, but the people having been previously misled were in a great measure prepared to thwart the means resorted to by the enemy. At Cisco, all the Union tickets were purchased on the night previous to the election by parties belonging to the opposition, and our people were forced to write their tickets until about 12 o'clock on the day of election. This, however, did not injure our cause; on the contrary, well-meaning persons, seeing to what measures the opposition resorted, flocked to the polls and refused to endorse a party that was compelled to adopt such contemptible means to carry through their candidates, and to this very act which they adopted, is, to a great extent, to be attributed our large majority at that place.

The news from all parts of the State indicate the election of the Union candidate for Judge of the Supreme Court and the Superintendent of Public Instruction by majorities ranging from four to five thousand. This, however, is no great majority for our State, but it shows that with all the dissatisfaction created by our late defeat, that our people are still determined to hold the reins of government in their own hands. This result not only secures to our people the best and most competent officers, but indicates a triumphant victory in the great national contest to take place next year. So note it be.

A SUBSTANTIAL DWELLING.—Dr. H. W. Nelson has nearly completed a dwelling house about 30 by 40 feet, two stories high, upon an entirely new plan from any hitherto adopted in this State. The foundation of sills and sleepers is of the usual style, while upon the sills scantling four by two inches are laid flat, one upon the other, and nailed fast, and so on, up to the height of two stories rises the solid structure, excepting that openings for doors and windows are left. Outside of this are very fine sugar pine weather-boards, the cornice and casings being of the same material. The inside is to be clothed and papered; the paper to be painted and frescoed in the highest style of the art. It is claimed that this will be far superior in many respects to the common shells built in California, and to the best lathed and plastered structures. There will be no plaster to crack, no rats or mice can get in to do mischief, and it will be warmer in winter and cooler in summer than any other kind of wooden structure. The cost is but a trifle more than the common plastered house. We commend it to the wise.

IMPROVING.—Our town is still on the improve. Our people seem to have adopted the advice recommended by Bulwer; that they "know no such word as fail." The two old buildings at the corner of Sacramento and Main streets are being torn down and the street is to be graded from the ENQUIRER office to the spot upon which those buildings stood, making the Sacramento straight and widening the turn, at the corner of Main to Halsey's blacksmith shop some thirty feet. This should have been done long since, but the citizens could not before realize the great advantages of having a first-class road in the central portion of the town. This move not only adds to the convenience of all our citizens but will materially enhance the price of property immediately in the vicinity of the improved premises.

ELECTION IN NEVADA COUNTY.—A. C. Niles is elected County Judge by about 250 majority. Curry gets about 300 and Swett about 450 majority. Only a few small precincts to be at issue.

SERVICES at the Union Church to-morrow, morning and evening.

LETTER FROM SAN FRANCISCO.

[The following letter was received too late for our last issue, but has lost none of its interest by the delay.—Dr. ENQ.]

SAN FRANCISCO, Oct. 12, 1867.

EDITOR ENQUIRER: Some months have elapsed since a letter from "Skoots" appeared in the ENQUIRER. The fact of the matter is that there was a scarcity of material at the seat of operations wherewith to manufacture an epistle of interest. I now propose, with your consent, and the consent of your many readers, to keep you posted to some extent as to matters and things in general concerning the city of the Pacific.

SAN FRANCISCO.

Great is "Frisco" Many the inhabitants thereof! At no time in the history of our city has there been the same amount of improvement going on; buildings innumerable are being erected throughout the city; streets are being repaved and improved in all quarters, while in all trades and callings there appears no lack of employment for good workmen. You seldom hear the old cry of hard times, and when you do it emanates from some shiftless, unenterprising individual who looks back to the glorious days of '49 and doubts the music of the age of enterprise and go-ahead-ness.

LABOR—EIGHT-HOUR MOVEMENT, ETC.

The eight hour men have about accomplished their object. The major portion of our mechanics work only eight hours. What a glorious revolution this in the history of workingmen! Think of it! The greasy mechanic of yore now has a say, and in a measure controls his own actions. Capital has lost its old tyrannical prestige, while earning one's bread by the sweat of his brow is now a pleasure. Men live to work now; before they worked to live. The future of our workingmen has indeed brightened, and the prayers of all noble-hearted men go with them for the success of their great labor reform.

POLITICS.

Things political are very much mixed. The eastern news will have considerable influence in shaping the result of our election to come. There is no use in denying that there is a vast change in the political sentiment of the people. "Down with the taxes!" is the cry of the people, and so sure as the next Congress refuses to reduce them so sure will the people repudiate them as representatives. The Union party is now on the eve of a crisis. It remains in our hands to say whether we are to continue as a party or go down before our mission is accomplished. If our party would pay more attention to matters that come home to the people, that interest the welfare of our present citizens, and less to subjects that had better not be forced, we will succeed. No man but must allow that the Union men are as many and earnest as in '64, but our leaders are forcing ideas that the people will not be forced to adopt. The result of our late election was not because the people had changed, but because they were tired and doubtful of our too rapidly progressive ideas.

Our coming local contest promises to be an exciting one. The Democrats have divided themselves. The Cotter-McKinstry affair has created the trouble. The Catholic portion of the party swear that under no circumstances will they vote for an individual who allowed the souls of three Catholic outlaws to go to perdition for the want of priestly intercession, while on the other side the McKinstry faction aver that all the prayer in the world wouldn't save them. This was too much for the "infallibles," and the consequence is the Democratic domicile is divided against itself. There is no doubt as regards the election of John Swett. He is the popular candidate with the majority of all classes. Our people are very sensitive about the education of their children, and as John Swett has proved himself the right man in the right place, the parents are determined to keep him there.

SUNDAY AMUSEMENTS—SUNDAY LAW, ETC.

There are in our midst, as in other large cities, a few self-constituted guides, who, in all matters pertaining to Sunday and the manner in which it shall be kept holy, take it upon themselves to dictate to the masses. Horatio Stebbins, an Unitarian preacher, has been of late holding forth to large audiences of non-church-goers. He advocates the liberal ideas of free thought and every man his own preacher; that if religion will not stand upon its own merits, then let it go down; that legislative action in our religious matters is unwarranted, and in its result will be futile; that the people of this country are not to be governed but educated; that we already have too much preaching; that one attendance at church on Sunday is amply sufficient; that the people are in need of parks in order to enjoy Sunday afternoon in harmless recreation and innocent enjoyment. And the people here heartily endorse him in his manly and christian opposition to making the day of rest a gloomy, melancholy one, wherein the dictates of hearts are to be stifled and religion forced.

LAND TROUBLES—RIOTS—MURDER—LAW INEFFICIENT, ETC.

For selfish ends some half-dozen broken down, pettifogging, quack lawyers of this city have for a few weeks been engaged in kindling a riotous feeling among the lawless citizens here, by publishing through

the city press addresses conspicuously headed "Land for the landless! Free homesteads for all! Every man his own landlord!" These addresses are made up of a well worded story about pueblos, etc., and the result as expected has followed, murder, riot and general lawlessness is the order of the day, and as our city election is fast approaching, our doughty knights of the silver star are as impotent as so many wooden men.

AMUSEMENTS, THEATRES, ETC.

San Francisco is justly noted for its liberal patronage of all kinds of amusements. We keep two first class theatres going constantly, and some three places called melodrama. At the latter institutions the moral standard of their performances are not of an over elevated caste. At the Opera House Dan Bryant has been running the Irish drama, to houses filled chiefly by that portion of the population who are sanguine that Ireland shall be free.

At the Metropolitan, the Japanese troupe of acrobats, jugglers, etc., performed for a week. I cannot use a more fitting word to describe the show than the vulgar term *bull*. On Monday last the Howson Company succeeded them, giving us, as they always do, fine performances. Last night a Miss Julia Hamilton made her debut as Julia, in "The Hunchback," rendering the part more than ordinarily well for a debutante. Leslie, Raynor & Smith are about to open a first-class Minstrel Hall this week. Tethow, of the Bella Union, is also talking of erecting a new Melodeon, where he proposes to give us a little more high-toned character of performances.

GARDENS AND CONCERTS.

The former residence of Senator Shaw has been transformed into a public resort, and now known as the City Gardens. They are by far the most beautiful and inviting gardens in the city. Evening concerts at these gardens have of late become quite fashionable, and thousands of our people visit the place these moonlight nights. The Willows, Hayes', Odeum and Woodward's Gardens continue to attract their share of patronage. A visit to either or any of them will more than repay one for the time and money spent.

SUMMONS.—State of California, County of Placer. In Justice's Court, before Charles E. Olney. The People of the State of California to JOHN JONES. You are hereby summoned to appear before me at my office in Cisco, in Township 11, in the county of Placer, on the 15th day of October, A. D. 1867, at 2 o'clock P. M., to answer the complaint of THE CISCO SAW-MILL COMPANY, wherein they pray judgment against you in the sum of Ninety eight 68-10 dollars upon a contract for lumber sold and delivered to defend-ant by plaintiff, when judgment will be taken against you for the above amount, together with costs and damages, if you fail to appear and answer.

To the Sheriff or any Constable of said county, greeting: Make legal service and due return hereof. Given under my hand, this 5th day of October, A. D. 1867. CHAS. E. OLNEY, Justice of the Peace, Township No. 11.

It appearing to the Court from the return of the Constable in the above entitled case, that personal service could not be had upon the defendant, upon affidavit of plaintiff setting forth that defendant is concealing himself for the purpose of avoiding service, it was ordered by the Court that publication be made of the summons in the Dutch Flat Enquirer, a newspaper published in Placer County, for the period of two weeks from date hereof.

CHAS. E. OLNEY.

DUTCH FLAT HOTEL.

MAIN STREET, DUTCH FLAT.

CHARLES SEFFENS, - Proprietor.

THIS HOUSE BEING NOW FULLY completed and arranged in all its appointments presents greater inducements to transient as well as permanent customers than any other establishment of the kind in the mountains. The proprietor having been in the business for a number of years, flatters himself that he is sufficiently known as a caterer to public taste to warrant their approval.

LARGE AIRY ROOMS, with clean bed linen, well ventilated, are requested that should not be dispensed with but which are ALWAYS found at this house.

THE TABLE

will always be found supplied with the latest delicacies of the season, and polite and waiting waiters always in attendance. In connection with the house is a BAR ROOM, always supplied with the best

WINES, LIQUORS

and CIGARS,

to be had in the market. An experienced bar-keeper constantly at hand to wait upon customers.

SUMMER RETREAT!

To families and all strangers in the mountains the proprietor would say that Dutch Flat presents all the inducements of a Summer Retreat, being located on the line of the Pacific Railroad at a convenient and pleasant distance from the city, is easy of access to those whose means are limited and require fresh air, kind treatment and good living. All the proprietor asks is an opportunity to prove the correctness of the above assertions.

LIVERY STABLE.

Connected with the hotel is a first-class Livery Stable, where for all parts of the country. Parties supplied with carriages with or without drivers.

Carriages from this hotel will be found at the depot on the arrival of every train. j3-4

SEMI-WEEKLY ENQUIRER.

We are requested to state that there will be a meeting of the members of the Pacific Guard at their armory this evening at 7 o'clock. Members will please attend.

RETURNS.—Dutch Flat: 214 votes polled. Curry, 130; Sprague, 84; majority for Curry, 46. Sweet, 134; Fitzgerald, 80; Sweet's majority, 54. County Judge—Spear, 133; Myers, 82; majority for Spear, 51. For Justices of the Peace, Brown has 124, Traphagen, 132, Bowley 82 and Hogan, 82.

Gold Run, 182 votes polled. Curry, 124; Sprague, 58; Sweet, 128, Fitzgerald, 54; Spear, 121; Myers, 59; Brown, 112; Traphagen, 121; Hogan, 62; Bowley, 50.

ALTA LEDGE.—This ledge is situated on the divide between the North and Middle Forks of the American River, and is owned by Smithwick & Co. The ledge has been prospected by different parties since 1856 and as often abandoned as worthless. In the summer of 1866 Messrs Smithwick and partners again prospected for the ledge, and after running a tunnel some twenty feet into the hill succeeded in striking a well defined and rich vein of quartz. They erected an astra and crushed some ten tons from which they obtained, in free gold, the sum of seventeen ounces, or something more than \$31 to the ton, allowing the value of the gold to be \$18 per ounce. The sulphur-ets, also, are said to be very rich, a portion of which have been worked by Dr. Dozier's process, and yielded as high as \$1,300 in silver and gold to the ton. These gentlemen, we understand, intend erecting works upon their ledge in the Spring, and from the success so far obtained are confident of realizing handsome yields from their efforts. Success to them.

INSTALLATION.—The following persons were installed, on the 15th instant, as officers of the Grand Chapter of California, E. and A. M. for the ensuing year: Isaac S. Titus, Grand High Priest; J. A. Jackson, Deputy High Priest; John W. Harville, King; Geo. T. Grimes, Scribe; Elisha W. Bourne, Treasurer; Lawrence C. Owen, Secretary; Arthur E. Hill, Chaplain; Jacob H. Neff, Captain of the Host; Stephen H. Wing, Royal Arch Captain; Isaac C. Rooks, Guard; Thomas H. Caswell, Lecturer.

Persons desiring any Eastern papers or periodicals can apply to Charles A. Heaton, our good-looking devil, who is authorized to solicit subscriptions.

CABLER'S Real Estate Circular for the past month found the sale of real estate in San Francisco at \$1,296,565.

IN IDAHO.—Snow is reported two feet deep on the Florence Mountain, and ten inches on the south side of Salmon river.

The total amount of moneys in the Sacramento city and County treasury, on the 28th of September, was \$37,940.07.

of either sex arising from Bod-

ily Weaknesses, whether in-

herent in the system or

PRODUCED BY SPECIAL CAUSES.

As a genuine Tonic, HOSTETTER'S BITTERS

produces effects which must be experienced or wit-

nessed before they can be fully appreciated.

Persons of feeble habit, liable to Nervous At-

tacks, Lowness of Spirit, Fits of Languor, find

prompt and permanent relief from the Bitters.

The testimony on this point is most conclusive,

and from both sexes.

In districts infested with Fever and Ague, it has

been found infallible as a preventative and irre-

sistible as a remedy. Thousands who resort to it if

under apprehension of an attack, escape the

scourge; and thousands who neglect to take it

themselves of its protective qualities in advance,

advance, are cured by a very brief course of this

marvelous medicine.

Acting as a gentle and painless aperient, as well

as upon the liver, it also invariably relieves the

Constipation superinduced by irregular action of

the digestive and secretory organs.

CHOLERA!

Mr. PERRY DAVIS:—Sir: The benefits I have re-

ceived from the use of your invaluable remedy,

the Pain Killer, induces me to say a word in its

praise. Experience has convinced me that for

Headache, Indigestion, Pain in the Stomach, or

any other part of the system, severe Chills, Wear-

iness, common Colds, Hoarseness, CHOLERA,

CHOLERA MORBUS, Diarrhea, Dysentery, Tooth-

ache, etc., there is nothing better than the

Pain Killer. I have this hour recovered from an

attack of the Sick Headache, by using two tea-

spoonfuls, taken at thirty minutes interval, in a

wine glass full of hot water. I am confident that,

if I could but see God, it would be to thank Him

for the chela during the summer of 1863. Traveling

amid heat, dust, toil, change of diet, and constant

exposure to an infected atmosphere, my system was

daily predisposed to dysentery attacks, accom-

panied with pain, for which the Pain Killer was a so-

vere remedy, one teaspoonful curing the worst case

in an hour, or, at the most half a day. I have heard

of many cases of Dysentery being cured by its use.

Put in the teeth, it will stop the toothache. Grati-

tude and a desire for its general use, has drawn from

me this unsolicited testimonial in its favor.

ABOUT DOGS.—Few persons are aware of the value and variety of dogs, varying as they do in weight from 160 pounds to less than one pound, and in value from \$500 to less than nothing. A description of the different varieties may not be uninteresting. The Siberian bloodhound weighs about 160 pounds, and measures forty inches in girth, and is worth nearly \$500. The St. Bernard dog, which is of a dull or light lead color, is very large and valuable.

The Newfoundland dog, when pure, is entirely black, and its pups are worth from ten to twenty dollars.

The shepherd dog, or watch colly, is wonderful for patience, fidelity and bravery. It is worth from \$50 to \$100.

The English mastiff, a good watch dog, is worth from \$15 to \$25.

Of terriers, the black and tan is the most admired. It varies in weight from one to twenty five pounds, and increases in value as it decreases in weight. Terriers are often crossed with the Italian greyhound, producing a very delicate but extremely useless dog. The Scotch terrier is the hardiest of dogs, is very courageous, and is worth from \$10 to \$30.

The Scotch deerhound is the rarest and most valuable of hunting dogs. They are very rare, and are owned principally by the nobility of England. They are worth \$100 each.

The beagle is the smallest of the hound kind, of superior scent and endurance, and is the best sort of a rabbit hunter.

The English greyhounds, the fleetest of dogs, are worth from \$25 to \$100 each. The Italian greyhound is merely a parlor dog. The pure breed being rare and valuable, a fine one being worth \$150.

There is a great variety of pointers, setters and spaniels. The Prince Charles variety is the most valuable of spaniels. He is supposed to have originated in Japan, where a similar breed exists. He has a round head, short nose, long curly ears, large full eyes, black and tan color, and never weighs over ten pounds. They have been sold at an auction sale in England at \$2,000 each.

The coach dog is from Denmark, and is not of much value.

Some Arctic and Esquimaux dogs were brought here by Dr. Kane. One was kept for a long time at the United States Hospital, at West Philadelphia. They are fox-like in shape, remarkable for activity and vigilance, and have an acute sense of hearing than any other dog.

Most of the dogs about our streets are spurious, and not even half-breeds.

OBTAING HUSBANDS FOR YOUNG LADIES.—Three young men, were before the Chicago Police Court a few weeks since, on the charge of being vagrants, says an Eastern paper, when one of them made the following defense:

"These two gentlemen and myself are of the firm of Edwards & Griffin. We are proposers. By that I mean, we propose to young ladies and help to get them married. We are benefactors. When we see a young lady who is not, and never has been engaged, one of us says to her, 'We will get you married for \$—, payable after marriage.' Of course she says yes. For the time being one of us is considered engaged to her. We trumpet the fact abroad. Whenever the other two of us meet a young man who is not engaged, we say, 'What a lucky dog Griffin is! He has won Miss X.' And we praise her. We encourage the young man to go in and cut Griffin out, for the fun of the thing. Being a fool, as most young men are, he does it. He proposes to Miss X, knowing that she is engaged to Griffin, and hardly expecting that she will accept him. But she always does. And he can never cut loose from her. He must marry her or be tried for breach of promise. I myself have been engaged twenty-five times during the last year. We are doing so well that we think of hiring a clerk to do part of the work for us. I should not have told you this but for your atrocious threats about Bridewell. But as we have given false names it does not make much difference."

"I should like that beautifully spotted little tiger cat," said a lady, while visiting a menagerie. "What for?" said her husband. "Oh, to have for a pet," said the lady, "and to sleep with." "What in consequence do you want to sleep with such a thing for?" "Why just to see the difference between a that and sleeping with a bear!" The husband suddenly proposed to take a look at the monkeys.

TO THE AFFLICTED.

DR. W. K. DOHERTY returns his sincere thanks to his numerous patients for their patronage, and would take this opportunity to remind them that he continues to consult at his Institute for the cure of chronic diseases of the Lungs, Liver, Kidneys, Digestive and Urinary Organs, and all private diseases, viz: Syphilis in all its forms and stages, Seminal Weakness, and all the horrid consequences of self-abuse, Gonorrhea, Gleet, Stricture, Nocturnal and Diurnal emissions, Sexual Debility, Diseases of the Back and Loins, Induration of the Bladder and Kidneys, etc., etc., and he hopes that his long experience and successful practice will continue to ensure him a share of public patronage. By the practice of many years in Europe and the United States, he is enabled to apply the most efficient and successful remedies against diseases of all kinds. He uses no mercury, charges moderate, treats his patients in a correct and honorable way, and has references of unquestionable validity from men of known respectability and high standing in society. All parties consulting him by letter or otherwise, will receive the best and gentlest treatment, and implicit secrecy.

TO FEMALES.

When a female is in trouble, or afflicted with disease, or weakness of the back and loins, pain in the head, dimness of sight, loss of muscular power, palpitation of the heart, irritability, nervousness, extreme urinary difficulties, derangement of digestive functions, general debility, vaginitis, all diseases of the womb, hysteria, sterility, and all other diseases peculiar to females, she should go or write at once to the celebrated female doctor, W. K. Doherty, at his Medical Institute, and consult him about her troubles and disease. The Doctor is effecting more cures than any other physician in the State of California. Let no false delicacy prevent you, but apply immediately and save yourself from painful sufferings and premature death. All Married Ladies whose delicate health or other circumstances prevent an in-person visit, should write or call at Dr. W. K. Doherty's Medical Institute, and they will receive every possible relief and help. The Doctor's offices are so arranged that he can be consulted without fear of observation.

TO CORRESPONDENTS.

Patients residing in any part of the State, however distant, who may desire the opinion and advice of Dr. Doherty on their respective cases, and who think proper to submit a written statement of such, in preference to holding a personal interview, are respectfully invited to their communications will be held most sacred, Dr. Doherty takes this opportunity of observing, that all letters are only opened and replied to by himself, and the latter is promptly as possible. If the case is fully and candidly described, personal communication will be unnecessary, as instructions for diet, regimen, and the general treatment of the case (including the remedies), will be forwarded without delay, and in such a manner as to convey no idea of the purport of the letter or parcel so transmitted. Consultation by letter or otherwise, FREE. Permanent cure guaranteed or no pay.

Spermatorrhoea.

DR. DOHERTY has just published an important pamphlet embodying his own views and experience in relation to Impotence or Sterility, being a treatise on Spermatorrhoea or Seminal Weakness, Nervous and Physical Debility consequent on this affection, and other diseases of the Sexual Organs. This little work contains information of the utmost value to all, whether married or single, and will be sent FREE by mail on receipt of six cents in postage stamps for return postage.

THIS CELEBRATED INSTITUTE

has enjoyed on this coast an uninterrupted success of fourteen years, and has become one of the renowned Hospitals of the age. What the celebrated Lock Hospital is to London, and the no less renowned establishment of Roid is to Paris, this Institute has become to the Pacific coast. The thousands annually received and cured, place it in point of number of patients among the very first of the world and the success of its treatment ranks it second to none.

PRIVATE DISEASES IN MALES AND IRREGULARITIES IN FEMALES are the great destroyers of health. They insidiously attack the system and gradually undermine and destroy it; they drive the blood from the cheek, they give to the world puny and diseased offspring, and poison through successive generations the race of man. The marks can be seen in Seminal Discharges, Gleet, Cripples, the Idiote, the Paralytic, the Insane, etc.

There is no more terrible scourge to the human race than these diseases arising from the contamination of Venereal Poison. The mildest forms, by retreating to the blood, hold over the afflicted one, the destruction that is liable at any moment to fall and blight—to utterly destroy—all earthly hopes.

MERCURY, recognized as the most fatal medical enemy to man, combining with the Venereal, doubles its dangers. Those who have been treated with that pernicious mineral poison are not cured; the disease has only assumed a new form.

Do not be satisfied with partial cures

that leave the poison to crawl through the system, eating its way into the tissues and organs beneath the apparently smooth surface, to burst out in the future with a virulence that will hamper the effects of medicine. WHEN PERFECT CURES can be obtained by consulting a physician who has long practiced thorough investigation into the causes of DISEASES OF THE URINARY ORGANS enables to determine at once the nature of the disease.

In all cases the most successful cures, PER-
FECT, SPEEDY AND PERMANENT.

Cures are Always Guaranteed.

In syphilis and its adjuncts: Gonorrhea, and all accompanying diseases, and all cases of the Bladder, Kidneys, and Prostate; Seminal Weakness, Diseases of the Heart and Lungs; Dyspepsia; Indigestion; Impotency; Incipient consumption, and all diseases of the human system, in either sex, are always warranted. NO PAY REQUIRED, at the

Seminal Weakness or Spermatorrhoea

The young man who experiences that growing weakness in his muscular and mental organization should stop to consider whence it arises. He will find in the weakness of the back, trembling of the limbs, disordered digestion, unaccountable failing of the powers of the mind, distaste for society, dread of impending trouble, foreboding of evil, sleeplessness, troubled and lascivious dreams, accompanied by groaning, loss of muscular power, and all the positive signs of that terrible and destructive of all diseases Seminal Weakness—wasting away his powers, destroying his hope of life and manhood, and dragging him along the broken path of his existence towards a premature and loathsome grave. To him who finds his life dripping out in the discharge of the vital principle of existence in nocturnal and diurnal emissions, the necessity of its appearance brings no assurance of relief.

Marriage, that holy office, the safeguard and hope of manhood, brings to such an one no hope of cure, but leads to his knowledge that the one, who looks to him for so much of his happiness, is a victim to his evil, and an innocent companion of his punishment. He adds to his misery and disorder until hope leaves him. There is no rescue except in proper and skillful treatment. Consult then, at once, a physician whom long practice and careful research has made thoroughly necessary with every phase of the disease. Those who have become the victims of solitary vices, that dreadful, fascinating and destructive habit, which kills thousands of our young men with paralysis and consumption, and hundreds of untimely graves with its misguided victims, should consult, without a moment's delay, one who will sympathize with their sufferings. To such a Doctor would willingly address himself, giving to each and all assurance of a PERFECT and PERMANENT CURE, without hindrance to business, change of diet, or fear of exposure.

Do not forget the address. See below.

Important to Females.

When a female is in trouble or afflicted with disease and requires medical or surgical assistance, the enquiry should be, Where is there a physician who is fully competent to administer relief, and whose respectable standing in society recommends him to the confidence of the community? The Doctor understanding here, imperatively necessary, these requirements are, first, called upon to interpose, and beg the attention of the afflicted to the fact that he has been a Professor of Obstetrics and Female Diseases for twenty years, and is fully qualified to administer in all cases, both medically and surgically, not in a superficial manner, but in as thorough a manner as years of study and practice—both in hospitals and private families—can make; to save them from the hands of the unqualified, unscrupulous and designing. Therefore families can rely upon him as upon a father. All in affliction can find in him one who will feel and sympathize with and befriend them in trouble—one in whose secret the utmost confidence can be placed. Consultation by letter or otherwise, FREE. See address below.

HOPE FOR THE AFFLICTED.—In another part of

this paper will be found the advertisement of the celebrated Institute established by Dr. J. C. Young, in 1850. It is this age of deceit and charlatanism a boon to the suffering to point out to them where they are sure of obtaining the wished for relief and cure. Under the care of the skillful Doctor the sick and troubled can divest their selves of their burdens of pain; by assiduous cross, and secure health and happiness. If you are sick or in trouble, do not hesitate. Read the advertisement and follow the advice. Do not forget the number or the manner of directing your letters. Consultation Office, 536 Washington street, San Francisco.

MEDICAL ADVICE.—DR. WM. K. DOHERTY'S Medi-

cal and Surgical Institute is becoming a sine qua non for the welfare of our State and health of our citizens; and his rapidly spreading reputation, although it may excite surprise, is but the signal of skill, and follows as the natural result of such a cause. We are personally acquainted with gentlemen who had suffered for years under chronic disease, and who had taken advantage of every available means that promised relief, but without success, until they called upon Dr. Doherty, who, in an incredibly short space of time, has given them entire relief. In no case does the Doctor make a charge unless he effects a cure. This he is able to do, because he feels the confidence which long experience has given, and no doubt the consolation which appertains to that confidence. Persons afflicted with either acute or chronic disease, would do well to consult the Doctor; at all events, they can do no harm, as for consultation he asks no fee; nor does he insist on obedience to his advice unless the patient places himself under his care. His offices are on Sacramento street, opposite the Pacific Mail Steamship office.—News.

SPECIAL MEDICAL NOTICE.—DR. CHAS. H. TOZER,

would most respectfully inform the sick and afflicted that his MEDICAL INSTITUTE is removed to No. 118 Montgomery street, next door to the Occidental Hotel, San Francisco. Having relinquished his old modes of advertising, which has become so common with all the Quack Doctors of San Francisco, filling up the newspapers with false references, for the purpose of imposing upon strangers, I think it is only necessary to inform those in need of a Physician of long experience and successful practice, that I can be consulted at all business hours, at my Medical Institute, corner of Kearny and Jackson streets, San Francisco.

Ladies suffering from the Whites, Piles, Weakness of the Back, Pain in the Side, Headache, Palpitation of the Heart, Derangement of their Monthly Sickness, and all other diseases that the Female System is subject to, will find prompt relief by applying to DR. TOZER.

My Female Monthly Pills were never known to fail in giving relief in those cases for which they are recommended. To be obtained only at my office. Price \$5.00 with full directions on each Box. Sent by mail or express.

Address CHAS. H. TOZER, M. D., San Francisco, Cal., or Lock Box, 1884. Consultation Free.

All communications strictly confidential.

MEDICAL.

FRENCH MEDICAL OFFICE.

DR. JULIEN PEREAULT, Doctor of Medicine of the Faculty of Paris, Graduate of the University Queen's College, and Physician of the St. John Baptist Society of San Francisco.

DR. PEREAULT has pleasure to inform patients, and others seeking confidential medical advice, that he can be consulted daily at his office, Armory Hall Building, North-East corner Montgomery and Sacramento streets, San Francisco. Rooms No. 9, 10, 11, first floor, upstairs entrance either Montgomery or Sacramento streets.

DR. PEREAULT'S studies have been almost exclusively devoted to the cure of the various forms of Nervous and Physical Debility, the results of injurious habits acquired in youth, which usually terminate in Impotence and sterility, and permanently induce all the concomitants of old age. Where a secret infirmity exists involving the happiness of a life and that of others, reason and morality dictate the necessity of its removal, for it is a fact that premature decline of the vigor of manhood, matrimonial unhappiness, compulsory single life, etc., have their sources in causes, the germ of which is planted in early life, and the bitter fruit tasted long afterward; patients, laboring under this complaint, will complain of one or more of the following symptoms: Nocturnal Emissions, Pains in the Back and Head, Weakness of Memory and Sight, Discharge from the Urethra on going to stool or making water, the Intellectual Faculties are Weakened, Loss of Memory ensues, Ideas are clouded and there is a disinclination to attend to business, or even to receive visits from the society of friends, etc. The patient will probably complain of Dizziness, Vertigo, and that Sight and Hearing are Weakened and sleep disturbed by dreams, melancholy, sighing, palpitations, faintings, coughs and slow fever; who some have external rheumatic pain, and numbness of the body. Some of the most common symptoms are pimples in the face and itching in different parts of the body. Patients suffering from this disease, should apply immediately to Dr. PEREAULT, either in person, by letter as he will guarantee a cure of Seminal Emissions and Impotence in six to eight weeks. Patients suffering from venereal diseases in any form, Gonorrhea, Gleet, Stricture, Bubo Ulcers, Cutaneous Eruptions, etc., will be treated successfully. All Syphilitic and Mercurial Taints entirely removed from the system.

DR. PEREAULT'S salignities are in his office, where patients can see for themselves that they are under the care of a regularly educated practitioner. The best references given if required.

Patients suffering under chronic diseases, can call and examine for themselves. We invite investigation; claim not to know everything, nor to cure everything, but we do claim that in all cases taken under treatment we fulfill our promises. We particularly request those who have tried this boasted doctor, and that advertisement physician, till worn out and discouraged, to call upon us.

Low charges and quick cures.

Ladies suffering from any complaint accidental to their sex, can consult the doctor, with the assurance of relief.
